

Complete Tire Coverage Terms and Conditions

What is covered and for how long?

This warranty covers only those tire(s), for which this warranty: (1) has been purchased along with the tire, or (2) for those tire(s) which when purchased from Cassidy Tire and Service included a Complete Tire Coverage warranty, which tire(s) become unserviceable as a result of road hazards (i.e., cuts, snags, bruises, impact breaks or other un-repairable punctures). Tires damaged as a result of the following occurrences are **not** covered under warranty: Run Flats, wheel misalignment, cosmetically damaged tires, tires run over/under inflated, necessary vehicle maintenance has not been performed, vandalism and accident collision.

What is Not Covered

- Tires removed from service due to being overloaded or intentional abuse.
- Tires that can safely be fixed will be repaired, not replaced.
- Road service, towing costs, and other incidental damage.
- Mounting, balancing and applicable state and federal taxes.

How the Replacement Price to be Determined:

NORMAL ROAD HAZARDS (Complete Tire Coverage): If a tire covered by this warranty becomes unserviceable due to a normal road hazard (i.e., cuts, snags, bruises, impact breaks or other un-repairable punctures) during the usable tread life of the tire (usable tread is the original tread depth minus 2/32nds) you will receive a credit for the amount of usable tread remaining on the damaged tire based upon the current retail price. This credit will be deducted from the current retail price of the replacement tire. Free flat repair for the life of the tire is included with the purchase Complete Tire Coverage. We will also rebalance the repaired tire at no charge.

Complete Tire Coverage credits will be calculated as follows:

Each new tire begins with a tread depth measured in 32nds. The amount you will pay for a new tire will be calculated based on the chart below: the price of the new tire multiplied by the percentage of wear equals the price of the new tire.

Original Tread Depth in 32nds							
	9/32nds	10/32nds	11/32nds	12/32nds	13/32nds	14/32nds	15/32nds
2/32nds	100%	100%	100%	100%	100%	100%	100%
3/32nds	86%	88%	89%	90%	91%	92%	92%
4/32nds	71%	75%	78%	80%	82%	83%	85%
5/32nds	57%	63%	67%	70%	73%	75%	77%
6/32nds	43%	50%	56%	60%	64%	67%	69%
7/32nds	29%	38%	44%	50%	55%	58%	62%
8/32nds	14%	25%	33%	40%	45%	50%	54%
9/32nds	0%	13%	22%	30%	36%	42%	46%
10/32nds		0%	11%	20%	27%	33%	38%
11/32nds			0%	10%	18%	25%	31%
12/32nds				0%	9%	17%	23%
13/32nds					0%	8%	15%
14/32nds						0%	8%
15/32nds							0%

Example :Original tread depth 10/32nds, remaining tread 7/32nds = 38%
 Original retail price \$69.99 x 38% = \$26.60
